Firm Presentation

The law firm of Biriş Goran was launched in 2006. Since then, we have quickly established ourselves as counsel of choice for heavyweight international investors and local entrepreneurs alike. Chambers, PLC Which Lawyer? and Legal 500 have all listed us as top practices in Romania within our areas of specialty.

We have the resources and expertise to execute transactions to international standards. Large or small, domestic or cross-border, where and whenever needed.

Our 30+ attorney team is composed of experienced professionals supported by bright young talent, all with strong backgrounds from local and global firms. Many of our lawyers are also trained and licensed to practice in the US, UK and Canada. The result? Business-driven advice delivered on time and in a manner that meets, and often exceeds, our clients' expectations.

This is why during the past years we have been involved in high-profile, complex, multi-million EUR transactions, representing an array of leading multinationals, investment funds, developers and high net worth individuals.

In Romania's economy, vast opportunities go hand-in-hand with risk. We believe that our unique strengths make us the premier choice for getting you safely where you want to be in Romania and the wider region.

Energy & Natural Resources Practice

Biriş Goran's energy & natural resources team, lead by of counsel Christian Mîndru, recognized by the Chambers Europe 2007, (www.chambersandpartners.com) edition for his "*deep knowledge of the due diligence and unbundling procedures relating to the privatization of gas distribution companies*" has been increasingly called upon to advise on energy-related matters. We offer advice on all aspects of oil & gas, power, renewable and alternative energy.

As an example, we have offered advice relating to exploration and concession agreements, as well as the establishment and operation of energy trading companies. Our lawyers handled such high-profile transactions as the privatization of Distrigaz Nord, one of the two main natural gas distributors in Romania. We also have considerable experience in carbon trading and monetization of carbon allowances, and advise on the Romania and transnational aspects of such transactions.

Selected Recent Track Record

Lawyers of our group have been involved in some important transactions, either as members of Biris Goran or while working for previous law firms, some of which are listed below, enabling them to gain valuable experience in the energy & natural resources field.
